## ULTRACURE POWDER COATINGS

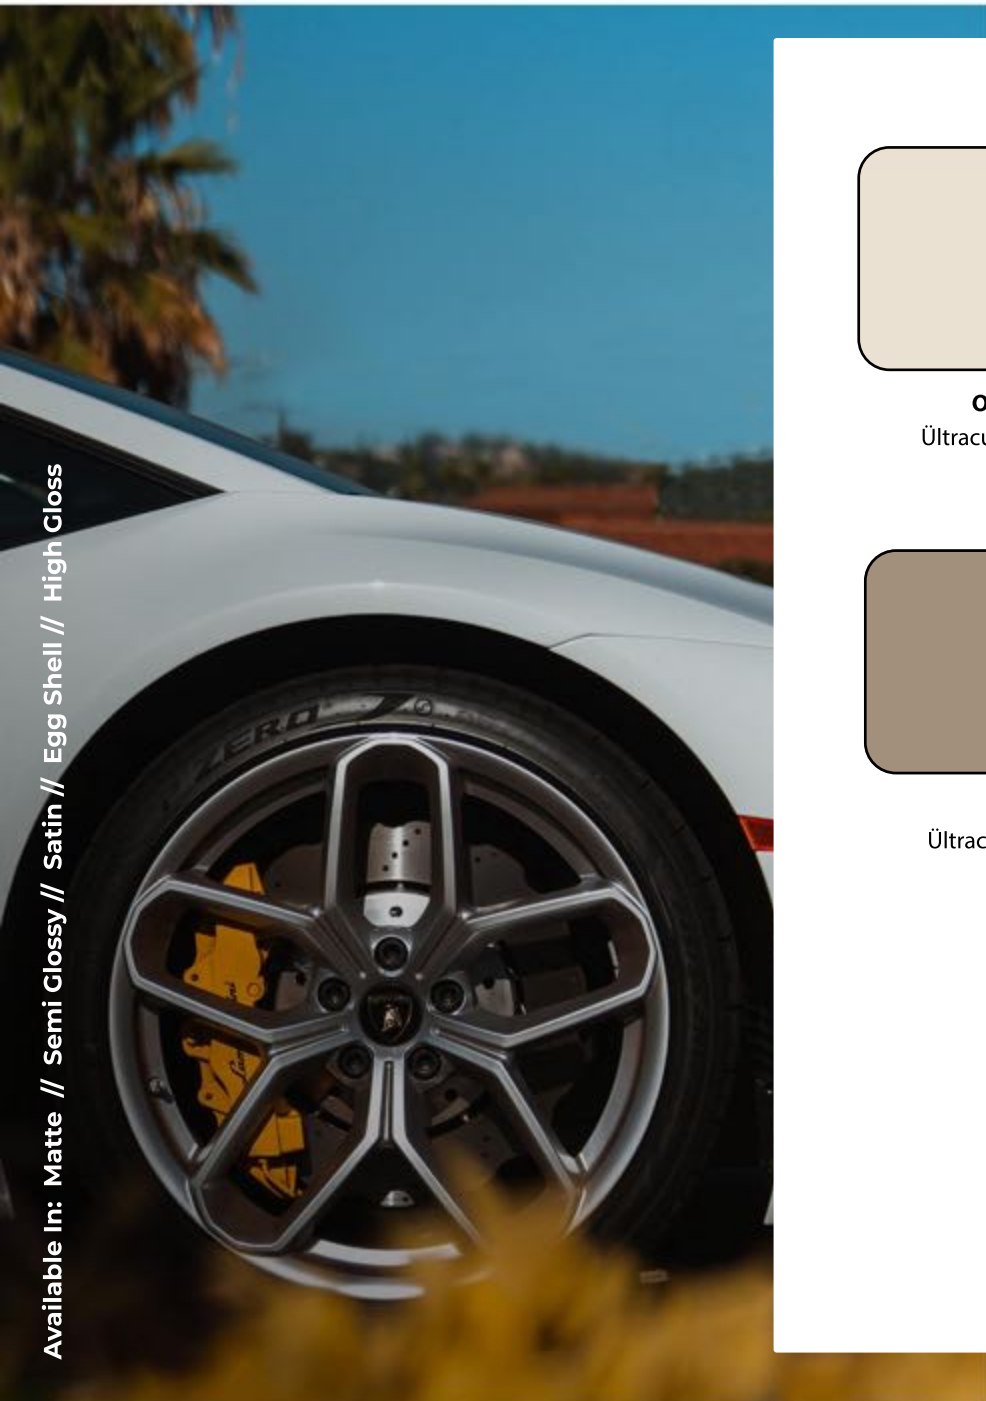

Ultracure Powder coatings are tough, durable and more importantly environmentally friendly alternative to traditional liquid coatings. They offer superior performance in terms of abrasion resistance, scratch resistance, film integrity and overall better durability and performance than conventional paints and coatings, depending on the chemistry. They are also available in special effects such as hammertone, structure, texture, smooth, wide range of gloss levels – high gloss to dead matte.

### CHEMISTRY

- Epoxy
- Epoxy/Polyester Hybrid
- Polyester – TGIC
- Polyester – Primid
- Superdurable Polyester
- Superdurable Fluorourethane
- Silicone

### SPECIALTY APPLICATIONS

- FDA compliant powder coatings
- Anti-graffiti powder coatings
- Fire-retardant powder coatings
- Anti-microbial powder coatings
- High temperature resistant powder coatings
- Low temperature cure for heat sensitive substrates
- UV curable powder coatings
